SECTION A: SCREENING

Hello. My name is _____ and I work for Children's HealthWatch, a research project taking place in five US cities to understand the connections between public policies, economic conditions, and young children's health and well-being.. While you are waiting to be seen by the ER/clinic staff do you have a few minutes to participate in an interview? *[If caregiver refuses, thank them for their time. If caregiver agrees continue relaying below information.]*

We interview caregivers of children in Boston, Baltimore, Philadelphia, Little Rock and Minneapolis. Caregivers are asked to participate in an interview while their child is seen in the pediatric Emergency Department (ED)/primary care clinic. We focus on very young children because changes in government programs and policies today may impact their growth, health and learning. Our research explores how changes in government-funded family safety net programs and changes in the economy affect the nutrition and health of very young children and their families. More information about our work and all of our publications is available at www.childrenshealthwatch.org.

Data that we gather from you and others will be stored to help answer important questions about how policies are affecting children over time. The study involves a one-time survey which takes up to 30 minutes. During the survey, I will read the questions to you. I will ask you about your child's health and learning, and your experiences with healthcare, housing, childcare, utilities, and food. The questions are the same for every participant. If you do not want to answer a question, you do not have to. In addition, I will request your permission to access your child's medical chart. If you return to the Emergency Department in six months, you can participate in the survey again, and we will ask for your consent again.

After you take part in the survey, your answers will be stored with others in a secure manner. The data we collect from you and other people who participate in the survey is analyzed in combination with the larger group. Over time, researchers will use the data to answer questions about child health in the United States. [MA, MD, MN, PA: You may be contacted in the future to be informed of other research opportunities.] Upon completion of the survey you will receive a [describe gift or compensation that will be received]. Do you have any questions?

SECTION K: ACE SURVEY [Sections K and L for BIOLOGIC mothers only; SKIP to Section M if caregiver is not the BIOLOGIC mother]

Method of Administration [for Interviewer Only; default to option 6 for all sites (Options 1-5 for Philadelphia)]

1 = Verbal (paper) - Interviewer asks questions to the participant, and fills out the paper version of the survey, which is later entered into a database.

2 = Self Read (paper) - Participant reads the paper version of the survey and fills it out by themselves without interviewer input. Responses are later entered into a database.

3 = Audio - Participant receives a pair of headphones and the laptop, and listens to the questions while reading them on the screen. Participant enters all data themselves and interviewer does not assist participant or see responses. Does not require data entry but does require reconciliation of the files at a later time since they are encrypted and interviewer cannot go back and adjust questions for any reason once the survey is finished.

4 = Mixed Methods

5 = Verbal (using ACASI) - Interviewer asks questions to the participant, and fills out the survey in ACASI for them.

6 = Verbal (Children's HealthWatch database) – Interviewer asks questions to the participant and fills out electronic survey (not ACASI)

The next set of questions is about stressful events that you may or may not have experienced when you were younger (from the ages of 0 to 18 years old).

SECTION L:
SITE SPECIFIC

OUTREACH PROGRAM

REMEMBER TO ASK THIS IF PERTINENT TO FAMILY'S SITUATION!!!

[Interviewer: Ask these questions of each participant. Some families may not feel comfortable sharing information during the interview but will share with an outreach worker. Every family's experience is important – if they have a story to share, record it in B.]

A. Your experience is very important. The people who make policy decisions about families often like to hear about how programs affect families with children. Would you be willing to share your story with our team or person in the media?

a Yes b No

B. INTERVIEWER: Please briefly describe the family's experience (positive or negative) with public assistance programs or other relevant issues (for example, housing conditions, immigration, trade-offs forced by economic situation etc.).

C. Would you like to speak to an outreach worker? We have an outreach worker who specifically helps families that we come in contact with get the help or information they need. Would you like an outreach worker to contact you to assist you with your situation?

a Yes b No

D. INTERVIEWER: What specific information will the family need from the Outreach Worker?

Please make a note of the materials you have given to the family already. This will help the outreach worker to provide the best possible outreach information! If the family is not comfortable sharing with you what subject they would like to discuss with the Outreach Worker, do not push them to do so – just ensure that you have the appropriate contact information.

INTERVIEWER: If the family answers yes to A or C, please fill out sections E and F.
